Portfolio

EDUCATION

- Sikkim Manipal Institute of Technology** *July 2019 - August 2023*
Bachelor of Technology, Computer Science Engineering; CGPA: 8.8 Sikkim, India

EXPERIENCE

- IEMA Research and Development Pvt. Ltd** *January 2025 - Present*
Web Development Intern Kolkata, India
 - Developing an ETL solution using React and Flux, creating dynamic interfaces and ensuring seamless data flow to enhance data processing performance and scalability.
 - Designed a responsive webpage for the company's service website using Figma, enhancing user experience and branding, resulting in a modern interface that increased engagement.
- Keysight Technologies** *January 2023 - July 2023*
Research and Development Intern Kolkata, India
 - Integrated new features into React components, including advanced state management and conditional rendering, reducing feature implementation time by 20%.
 - Assisted in manually debugging 50+ test cases, leading to the identification and resolution of software issues, significantly improving code quality and application performance.
- Variable Energy Cyclotron Center** *June 2022 - July 2022*
Web Development Intern Kolkata, India
 - Revamped the outdated UI of the recruitment page by restructuring and modernizing the codebase, enhancing maintainability and readability, which led to a 30% reduction in code-related issues.
 - Implemented Bootstrap to redesign the page, achieving a responsive layout 100% that improved user experience across devices, resulting in a 40% increase in user engagement.

PROJECTS

- Movix: Streamlined Search for Movies and TV Shows** *August 2024 - August 2024*
Tools: ReactJS, Tailwind, Router, Redux [Link]
 - Developed a dynamic movie and TV show discovery platform using React and Redux, featuring advanced search and filter functionalities to enhance user experience for an extensive collection of 45,000+ titles, achieving 100% responsiveness across five screen sizes.
- Google Drive Clone** *July 2024 - July 2024*
Tools: ReactJS, Firebase, Tailwind, Web Speech API [Link]
 - Built a file management application with real-time file operations, leveraging Firebase for seamless data synchronization and dynamic updates.
 - Designed a responsive interface supporting list and grid views, reducing layout issues by 40%, and integrated voice commands with 6+ functionalities to enhance accessibility and streamline file management tasks.

SKILLS

- Programming Languages:** HTML, CSS, JavaScript, Java, Python(Basic)
- Framework / Libraries:** ReactJS, Redux, Tailwind, Bootstrap, Flask
- Designing:** Adobe Illustrator, Adobe Photoshop, Figma
- Tools and Technologies:** GIT, VS code, Firebase

CERTIFICATIONS

- Full Stack Development, Geekster** *November 2023 - November 2024*
[Link]
 - Participated in various Coding contests / Practice Tests organised by the platform.
 - Technical Stack Learned : HTML, CSS, JavaScript, Bootstrap, Tailwind, Redux, Firebase and Java.
